

## Web Application - Itinerary Management System

Itinerary Management System is to serve the transportation needs of Professional Meeting & Event Planners.

The IMS is a web based solution that allows the staff to:

- Store information about customers
- Create groups of customers
- View customer's activity in the past
- Make records on the current activity
- Create a fleet of vehicles.

Also, the system allows generating different kinds of PDF reports, maintaining log files, and managing information on users and user groups
